

Phantom of the Universe

From the journey of protons racing through the world's largest particle collider

in Europe to up-close views of the Big Bang and emergent cosmos, Phantom of the Universe is a new full-dome planetarium show designed to immerse audiences in the search for dark matter. A collaboration of [Lawrence Berkeley National Lab](#) [1], [University of Texas at Arlington](#) [2], [Michigan State University](#) [3], [IFIC at University of Valencia](#) [4], as well as other institutions. It is narrated by Oscar-winning actress, Tilda Swinton.
